

Human-Driven. AI-Empowered.

We're a mature small business that designs and engineers AI-ready systems for federal agencies, with the past performance and contract vehicles to start now.

WHAT WE DO

- 01 Governed AI, pilot to production**
AI that can pass a governance review. We build in the testing, monitoring, and human review federal policy requires for high-impact AI from the first sprint.
- 02 Mission workflow modernization**
Fewer hours and fewer handoffs in everyday work. We rebuild workforce tools, case management, and legacy applications, starting with field research.
- 03 Systems engineering and integration**
New and existing systems that share data reliably. We engineer the architecture, interfaces, and APIs that connect them, tested end to end.

HOW WE WORK · WITH-AI

Design, domain-driven design, Agile delivery, DevSecOps, and data architecture run as one loop: discover the work, design the handoff, engineer with evidence, evolve in production. Each AI task gets an Earned Autonomy level and moves up only with evidence.

 Assist Draft and approve Review by exception Act and audit

WHY AGENCIES CHOOSE US

Exceptional CPARS

Every program we have performed has a final CPARS rating of Exceptional.

Senior people on the work

The people who scope your program are the people who deliver it.

Certified process

ISO 9001 quality and ISO/IEC 20000-1 service management, at small-firm speed.

Ready to put on contract

GSA, NASA, SBA, and CMS vehicles, plus SBA 8(a) certification.

COMPANY DATA

UEI V43NK6G1EYZ3
CAGE 7J1B2
Founded 2015
HQ Brambleton, Virginia

DESIGNATIONS

Small business
SBA 8(a), through December 2030

CERTIFICATIONS

ISO 9001:2015
ISO/IEC 20000-1

CONTRACT VEHICLES

GSA MAS
47QTCA19D001Q
GSA OASIS+ Small Business and 8(a)
via Kotech Digital JV
NASA SEWP VI
Category C
SBA EADS BPA
CMS DASH BPA

Selected past performance

Civilian customers are named. Defense work is described by mission. Full write-ups, CPARS, and references are available on request.

CUSTOMER	ENGAGEMENT	CAPABILITIES DELIVERED
USDA Forest Service	Workforce management tool modernization; generative AI chatbot prototype	Applied AI, HCD, web and API development, cloud, data migration
Federal defense agency via prime	AI-enabled platform engineering and integration on an acquisition modernization program	AI platform engineering, systems integration, DevSecOps, cloud
CMS via Kotech Digital JV	National Training Program learning platform O&M and enhancements; Agile Release Train launch	Platform engineering, Section 508, SAFe coaching, release management
NIST	Federal incentives program office support: financial policy, merit review, investment process	Program management, financial modeling, policy, change management
GSA	Consolidation of eight acquisition systems into a single platform (subcontract)	Web UI, microservices and APIs, automated end-to-end testing
NOAA via Kotech Digital JV	Independent security assessment of a cloud system: gap analysis, findings, remediation	Security assessment, cloud security, compliance, risk analysis
NISS at Georgia State University	Digital agency of record: rebrand, website, online learning portal and content library	Design systems, web development, AWS, infrastructure as code
Commercial SaaS client	Architecture, design, build, and hosting of a multi-tenant, federal-facing workflow platform	HCD, multi-tenant SaaS, AWS GovCloud, DevSecOps, O&M

"In addition to fulfilling all contractual obligations, Kollabio has brought innovative solutions and technical excellence to the project. Their dedication to continuous improvement and innovation has added significant value to the government."
